# Michael Vasarella

(262) 960-1611 | [vasarellami@gmail.com](mailto:vasarellami@gmail.com) | mikevasarella.com | github.com/Mikevas79

## EDUCATION

### University of Wisconsin Milwaukee
- Master of Science - Information Technology, *May 2023* – GPA: 3.93
- Bachelor of Business Administration – Accounting, *Fall 2021* – GPA: 3.43

## TECHNOLOGIES
- Microsoft Office (especially Excel), Google Sheets, NetSuite (ERP), Accounting Software
- Python, JS, C#, MySQL, HTML/CSS, SSL/TLS, SuiteScript, Node.js, PHP

## WORK EXPERIENCE

### Wolter Inc – Brookfield, WI
Business Analyst                                                                 *February 2025 – April 2025*
- Gained hands-on experience on their QuipWare ERP system and Month-End Closing procedures. I also played a crucial role in the accounting sector by directly assisting the CFO with his daily tasks and responsibilities.

### Keder Solutions – Oak Creek, WI
Financial Analyst                                                                 *July 2024 – October 2024*
- Conducted high-quality data analysis on inventory trends, providing actionable insights to leadership for optimal warehouse space utilization working directly under the CFO.
- Developed automation tools in NetSuite using SuiteScript, streamlining complex sales item creations and material build processes into a single-click from sales to manufacturing.

### Baker Tilly US, LLP - Milwaukee, WI
Risk Advisory Consultant                                                                 *June 2022 – January 2024*
- Prepared SOC 1, SOC 2, and SOX audit reports providing evidence that client companies information is accurate.
- "Areas of strength for Mike would be his level of detail in completing testing/reviewing documentation and his flexibility to adapt to different project situations", Co-worker feedback

## PROJECTS

### CAMPING IN – Remote - Surrey, BC
Website Developer /Finance Coordinator/Startup Consultant                 *June 2023 – Present*
- Partnering with a startup founder to design, build, and maintain a full-stack e-commerce website, contributing on a flexible schedule to align with business development needs.
- Spearheaded the configuration and management of a Virtual Private Server (VPS) to build and deploy a website from scratch, leveraging command-line tools and shell scripting to streamline server setup, enhance performance, and automate key processes.

### Website Hockey Stats - API                                                                 *2025*
- Created multiple API's to present individual player stats. People can go to this website [https://eashl.club/search.html](https://eashl.club/search.html) and search up any video game hockey club stats. It is very detailed and mobile friendly. This project uses a lot of JavaScript and Node.JS.

## LEADERSHIP

### SCLC Executive Board Member                                                                 *2017 - 2018*
- Maintained and distributed a budget of $250,000 for all club sports.
- Implemented policies to help run all club sports at UW-Milwaukee.

### Vice President – University of Wisconsin – Milwaukee Club Hockey Team                 *2018*
- Assisted in compliance planning with UW-Milwaukee's regulations.
